Visit Continental Girbau, Inc. interactive booth 2352 during Clean '11

Oshkosh, Wis.— At Clean '11, in Las Vegas, Continental's 5,600-square-foot booth (Booth #2352) will display new and existing products from each of the three Continental Girbau Inc. brands – Girbau Industrial, Continental Girbau, and OnePress. Additionally, Continental will offer live demonstrations of the Intelli Control – Continental's most advanced programmable control ever; and interactive demonstrations of the E-Series Energy Analysis, a comparison tool that allows users to see detailed utility savings between hard-mount and soft-mount washers.

"The Clean show allows us to teach potential customers the unique features of the vast product offering we have throughout our three brands. This is a huge benefit to vended laundry owners and laundry managers alike – especially those looking for highly efficient and productive laundry equipment," said Continental President Mike Floyd. "At Clean, they can learn first hand how our equipment and our distributor network set us apart," he said.

On hand will be the complete Continental Girbau product line-up, including the E-Series, M-Series, L-Series and Econ-O-Wash washer lines; the Pro-Series II, ExpressDry and Econ-O-Dry drying tumbler lines. The Girbau Industrial product line-up will include the new EcoTunnel continuous batch washer system and select models from the linen handling line-up including the PC-120 Flatwork Ironer in natural gas; the DRF multi-station spreader feeder; the FL-Lite multi-lane folder/cross folder; the FT-Maxi and FT-Lite dry goods folders; and the AP-Lite drop-plate stacker.

Continental products are backed by an industry-best factory warranty. To find out more, call 800-256-1073 or visit www.continentalgirbau.com.

Continental Girbau, Inc. is the largest of 11 subsidiaries of the Girbau Group, based in Vic, Spain. Girbau laundry products – marketed throughout 90 countries worldwide – meet rigorous environmental and safety standards established by the International Organization for Standardization (ISO). The Girbau Group holds ISO9001, ISO14001 and EMAS certifications. Ever focused on laundry efficiency, Continental Girbau is a member of the U.S. Green Building Council (USGB), a 501(c)(3) nonprofit that developed the Leadership in Energy and Environmental Design (LEED) Green Building Rating System.
